Grade Organization

The District maintains instructional levels for grades kindergarten (K) through twelve (12). The grouping and housing of instructional levels in school facilities will be according to plans developed by the Superintendent and approved by the Board.

Instructional programs will be coordinated between each grade and between levels of schools.

A student will be assigned to an instructional group or to a classroom which will best serve the needs of that individual while still considering the rights and needs of other students. Factors to be considered in classroom assignments are class size, peer relations, student/teacher relations, instructional style of individual teachers, and any other variables that will affect the performance of the student.

Criteria for grouping will be based on learning goals and objectives addressed and the student's ability to achieve those purposes.

Curriculum Development and Assessment

The Board is responsible for curriculum adoption and must approve all significant changes, including the adoption of new textbooks and new courses, before such changes are made. The Superintendent is responsible for making curriculum recommendations. The curriculum will be designed to accomplish learning objectives and goals for excellence contained in the District’s educational philosophy, mission statement, objectives, and goals.

Interscholastic Activities

The District recognizes the value of a program of interscholastic activities as an integral part of the total school experience. The program of interscholastic activities will include all activities relating to competitive sport or intellectual contests, games or events, or exhibitions involving individual students or teams of students of this District, when such events occur between schools outside this District.

All facilities and equipment utilized in the interscholastic activity program, whether or not the property of the District, will be inspected on a regular basis. Participants will be issued equipment which has been properly maintained and fitted.

Title I Parent Involvement

NOTE: Schools receiving federal ESEA funds are required to have a parent involvement policy. This sample policy can be used as the basis for the joint development of a policy, as required by the federal legislation. This policy cannot be the District's policy without some parental involvement in its development at the local level.

The District endorses the parent involvement goals of Title I and encourages the regular participation of parents of Title I eligible children in all aspects of the program. The education of children is viewed as a cooperative effort among the parents, school, and community. In this policy the word "parent" also includes guardians and other family members involved in supervising the child's schools.

Pursuant to federal law the District will develop jointly with, agree upon with, and distribute to parents of children participating in the Title I program a written parent involvement policy.

At the required annual meeting of Title I parents, parents will have opportunities to participate in the design, development, operation, and evaluation of the program for the next school year. Proposed activities to fulfill the requirements necessary to address the requirements of parental-involvement goals shall be presented.

In addition to the required annual meeting, at least three (3) additional meetings shall be held at various times of the day and/or evening for parents of children participating in the Title I program. These meetings shall be used to provide parents with:

1. Information about programs provided under Title I;
2. A description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to meet;
3. Opportunities to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children; and
4. The opportunity to bring parent comments, if they are dissatisfied with the school's Title I program, to the District level.

Title I funding, if sufficient, may be used to facilitate parent attendance at meetings, through payment of transportation and childcare costs.

The parents of children identified to participate in Title I programs shall receive from the school

principal and Title I staff an explanation of the reasons supporting each child's selection for the program, a set of objectives to be addressed, and a description of the services to be provided. Opportunities will be provided for the parents to meet with the classroom and Title I teachers to discuss their child's progress. Parents will also receive guidance as to how they can assist at home in the education of their children.

Each school in the District receiving Title I funds shall develop jointly with parents of children served in the program a "School-Parent Compact" outlining the manner in which parents, school staff, and students share the responsibility for improved student academic achievement in meeting state standards. The "School-Parent Compact" shall:

1. Describe the school's responsibility to provide high quality curriculum and instruction in a supportive and effective learning environment enabling children in the Title I program to meet the state's academic achievement standards;
2. Indicate the ways in which each parent will be responsible for supporting their child's learning, such as monitoring attendance, homework completion, and television watching; volunteering in the classroom; and participating, as appropriate, in decisions related to their child's education and positive use of extracurricular time; and
3. Address the importance of parent-teacher communication on an ongoing basis with, at a minimum, parent-teacher conferences, frequent reports to parents, and reasonable access to staff.

Disabled student records shall be located in the _____, where they are available for review by authorized District personnel, parents, and adult students. Special education teachers will maintain an IEP file in their classrooms. These records will be maintained under the direct supervision of the teacher and will be located in a locked file cabinet. A record-of-access sheet in each special education file will specify the District personnel who have a legitimate interest in viewing these records.

D. Safeguards

The District will identify in writing the employees who have access to personally identifiable information, and provide training on an annual basis to those staff members.

E. Destruction of Information

The District will inform parents five (5) years after the termination of special education services that personally identifiable information is no longer needed for program purposes. The parent will be advised that such information may be important to establish eligibility for certain adult benefits. At the parent's request, the record information shall either be destroyed or made available to the parent or to the student if eighteen (18) years or older. Reasonable effort shall be made to provide the parent with notification sixty (60) days prior to taking any action on destruction of records. Unless consent has been received from the parent to destroy the record,

confidential information will be retained for five (5) years beyond legal school age.

F. Children's Rights

Privacy rights shall be transferred from the parent to an adult student at the time the student attains eighteen (18) years of age, unless some form of legal guardianship has been designated due to the severity of the disabling condition.

Discipline

Students with disabilities may be suspended from school the same as students without disabilities for the same infractions or violations for up to ten (10) consecutive school days. Students with disabilities may be suspended for additional periods of not longer than ten (10) consecutive school days for separate, unrelated incidents, so long as such removals do not constitute a change in the student's educational placement. However, for any additional days of removal over and above ten (10) school days in the same school year, the District will provide educational services to a disabled student, which placement and services will be determined by appropriate school personnel. The District will implement the disciplinary procedures in accord with the requirements of CFR 300.519 - 300.529.

Section 504 of the Rehabilitation Act of 1973 (“Section 504”)

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated, and provided with appropriate educational services. For those students who need or are believed to need special instruction and/or related services under Section 504 of the Rehabilitation Act of 1973, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students’ identification, evaluation, and educational placement. This system shall include: notice, an opportunity for the student’s parent or legal guardian to examine relevant records, an impartial hearing with opportunity for participation by the student’s parent or legal guardian, and a review procedure.

Section 504 of the Rehabilitation Act of 1973 ("Section 504")

- (1) Impartial Due Process Hearing. If the parent or legal guardian of a student who qualifies under Section 504 for special instruction or related services disagrees with a decision of the District with respect to: (1) the identification of the child as qualifying for Section 504; (2) the District's evaluation of the child; and/or (3) the educational placement of the child, the parents of the student are entitled to certain procedural safeguards. The student shall remain in his/her current placement until the matter has been resolved through the process set forth herein.
 - A. The District shall provide written notice to the parent or legal guardian of a Section 504 student, prior to initiating an evaluation of the child and/or determining the appropriate educational placement of the child, including special instruction and/or related services;
 - B. Upon request, the parent or legal guardian of the student shall be allowed to examine all relevant records relating to the child's education and the District's identification, evaluation, and/or placement decision;
 - C. The parent or legal guardian of the student may make a request in writing for an impartial due process hearing. The written request for an impartial due process hearing shall identify with specificity the areas in which the parent or legal guardian is in disagreement with the District;
 - D. Upon receipt of a written request for an impartial due process hearing, a copy of the written request shall be forwarded to all interested parties within three (3) business days;
 - E. Within ten (10) days of receipt of a written request for an impartial due process hearing, the District shall select and appoint an impartial hearing officer who has no professional or personal interest in the matter. In that regard, the District may select a hearing officer from the list of special education hearing examiners available at the Office of Public Instruction, the county superintendent or any other person who would conduct the hearing in an impartial and fair manner;
 - F. Once the District has selected an impartial hearing officer, the District shall provide the parent or legal guardian and all other interested parties with notice of the person selected;
 - G. Within five (5) days of the District's selection of a hearing officer, a pre-hearing conference shall be scheduled to set a date and time for a hearing, identify

the issues to be heard, and stipulate to undisputed facts to narrow the contested factual issues;

- H. The hearing officer shall, in writing, notify all parties of the date, time, and location of the due process hearing;
 - I. Anytime prior to the hearing, the parties may mutually agree to submit the matter to mediation. A mediator may be selected from the Office of Public Instruction's list of trained mediators;
 - J. At the hearing, the District and the parent or legal guardian may be represented by counsel;
 - K. The hearing shall be conducted in an informal but orderly manner. Either party may request that the hearing be recorded. Should either party request that the hearing be recorded, it shall be recorded using either appropriate equipment or a court reporter. The District shall be allowed to present its case first. Thereafter the parent or legal guardian shall be allowed to present its case. Witnesses may be called to testify, and documentary evidence may be admitted; however, witnesses will not be subject to cross-examination, and the Montana Rules of Evidence will not apply. The hearing officer shall make all decisions relating to the relevancy of all evidence intended to be presented by the parties. Once all evidence has been received, the hearing officer shall close the hearing. The hearing officer may request that both parties submit proposed findings of fact, conclusions, and decision;
 - L. Within twenty (20) days of the hearing, the hearing examiner should issue a written report of his/her decision to the parties;
 - M. Appeals may be taken as provided by law. The parent or legal guardian may contact the Office of Civil Rights, 1244 Speer Boulevard, Suite 310, Denver, CO 80204-3582; (303) 844-5695 or (303) 844-5696.

Gifted Program

To the extent possible with available resources, all gifted and talented students will have the opportunity to participate in appropriate educational programs. “Gifted and talented students” are students of outstanding abilities, who are capable of high performance and who require differentiated educational programs beyond those normally offered in public schools, in order to fully achieve their potential contribution to self and society.

The District shall:

- Provide educational services to gifted and talented students that are commensurate to their needs, and foster a positive self-image.
- Comply with all federal and state laws and regulations regarding addressing gifted education.
- Provide structured support and assistance to teachers in identifying and meeting the diverse student needs of gifted and talented students, and shall provide a framework for considering a full range of alternatives for addressing student needs.

The Superintendent will establish procedures consistent with state guidelines for nominating, assessing, and selecting children of demonstrated achievement, or potential ability in terms of general intellectual ability and academic aptitude.

School Closure

All students, parents, and school employees should assume that school will be in session and buses running as scheduled, unless there is official notification from the Superintendent to the contrary. Such notice will be given via public media.

In the event extremely cold temperatures, wind chill factors, snow, wind, or other circumstances require a modification of the normal routine, the Superintendent will make the modification decision prior to 6:00 a.m. and contact the public radio stations for broadcast to the community and will initiate the emergency fan-out communication procedure to all administrators.

Work Schedules and Responsibilities for School Closures

Superintendent

Only the Superintendent has authority to close schools. The Superintendent will be on duty throughout any existing or potential emergency situation, day or night. All orders of doubtful origin should be confirmed with the Superintendent.

Central Administrative Personnel

Central administrative personnel will be expected to report for duty on their assigned shifts in the event of any school closure, insofar as is safely possible. Additional hours may be required, especially of the maintenance supervisor, business manager, and personnel director, depending on the nature of the emergency. If it is absolutely impossible for a central administrator to report for duty, the administrator may take the day as a personal leave day or vacation day, with the permission of the Superintendent.

Building-Level Administrators, Non-Teaching "Exempt" Personnel, and Key Support Staff

All building-level administrators and non-teaching "exempt" personnel will report for duty per their normal shifts or as otherwise directed each day during the school closure, together with the head custodian and at least one (1) secretary, insofar as is safely possible. The building administrator will ascertain that the building has been adequately secured and that any child who mistakenly reports to school [in the event school has been closed] is properly and safely cared for and returned home per District policy. The administrator and this minimal support staff shall notify other staff and/or other support employees of the situation and will respond to telephone questions. When the situation has been stabilized, the personnel who reported to work may choose to return home. An administrator or exempt employee who does not work a normal day will then adjust his/her work year, by memorandum to the Superintendent, by the number of hours not worked on the day or days of school closure.

12-Month Classified Employees

In the event of school closure, 12-month classified personnel may report for duty or not report for duty, as directed by their immediate supervisor. Building secretaries and secretaries to key central administrative personnel who are required to be on duty are expected to report for duty. If a 12-month classified employee is unable to or does not report for duty, the employee will complete a leave request form to declare the day as personal leave, vacation, or leave without pay.

10- and 11-Month Classified Employees

Ten- and 11-month employees may report for duty or not report for duty as directed by their immediate supervisor. If such employees do not report for duty, they will complete a District leave request form to declare the day as personal leave, vacation, or leave without pay.

Aides, Food Service Workers, and Other 9 1/4-Month Classified Employees

These employees work only those days school is in session and are not expected to work when school is not in session. If school has been closed, 9 1/4-month employees should not report for duty unless otherwise directed by their immediate supervisor. 9 1/4-month employees will complete a leave request form to declare the day as personal leave, vacation, or leave without pay.

Teachers (Teachers, Librarians, Psychologists, Counselors)

If schools are closed for weather or other emergency conditions, teachers are not expected to report for duty unless directed otherwise. Teachers do not need to submit an absence form. In cases of school closures, it is customary for the days to be made up at another time; thus teachers will typically still fulfill their contract days.

Selection of Library Materials

The District has libraries in every school, with the primary objective of implementing and supporting the educational program in the schools. It is the objective of these libraries to provide a wide range of materials on all appropriate levels of difficulty, with diversity of appeal and the presentation of different points of view.

The provision of a wide variety of library materials at all reading levels supports the District's basic principle that the school in a free society assists all students to develop their talents fully so that they become capable of contributing to the further good of that society.

In support of these objectives, the Board reaffirms the principles of intellectual freedom inherent in the First Amendment of the Constitution of the United States and expressed in the School Library Bill of Rights, endorsed by the American Association of School Librarians in 1969.

Although the Superintendent is responsible for selection of library materials, ultimate responsibility rests with the Board.

The Board, acting through the Superintendent, thereby delegates authority for selection of library materials to the principal in each of the schools. The principal further delegates that authority to the librarian in the school.

(NOTE: BY STATUTE, THE SUPERINTENDENT HAS AUTHORITY AND IS RESPONSIBLE FOR SELECTION OF LIBRARY MATERIALS, SUBJECT TO BOARD APPROVAL. THE SUPERINTENDENT AND BOARD MAY NOT WANT TO DELEGATE THIS RESPONSIBILITY.)

Selection of Library Materials

Selection of library materials is a professional task conducted by library staff. In selecting library materials, the librarian will evaluate the existing collection; assess curricula needs; examine materials, and consult reputable, professionally prepared selection aids.

Weeding

When materials no longer meet criteria for selection, they will be weeded. Weeding is a necessary aspect of selection, since every library will contain works which may have answered a need at the time of acquisition, but which, with the passage of time, have become obsolete, dated, unappealing, or worn out.

Discarded materials will be clearly stamped:

“WITHDRAWAL FROM MALTA PUBLIC SCHOOL LIBRARY”

Materials will be discarded in compliance with § 20-6-604, MCA. When the decision to sell or dispose of library materials is made, the Board will adopt a resolution to sell or otherwise dispose of the material because it is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the District. The Board will publish a notice of the resolution in the newspaper of general circulation in Malta. The resolution may not become effective for fourteen (14) days after notice is published.

Gifts

Gift materials may be accepted with the understanding they must meet criteria set for book selection.

Instructional Materials

The Board is legally responsible to approve and to provide the necessary instructional materials used in the District. Textbooks and instructional materials should provide quality learning experiences for students and:

- Enrich and support the curriculum;
- Stimulate growth in knowledge, literary appreciation, aesthetic value, and ethical standards;
- Provide background information to enable students to make intelligent judgments;
- Present opposing sides of controversial issues;
- Be representative of the many religious, ethnic, and cultural groups and their contributions to our American heritage;
- Depict in an accurate and unbiased way the cultural diversity and pluralistic nature of American society.

Basic instructional course material in the fundamental skill areas of language arts, mathematics, science, and social studies should be reviewed at intervals not exceeding five (5) years. All instructional materials must be sequential and must be compatible with previous and future offerings.

Instructional materials may be made available for loan to students when the best interest of the District and student will be served by such a decision. Students will not be charged for normal wear. They will be charged replacement cost, however, as well as for excessive wear, unreasonable damage, or lost materials. The professional staff will maintain records necessary for the proper accounting of all instructional materials.

Selection, Adoption, and Removal of Textbooks and Instructional Materials

Curriculum committees will generally be responsible to recommend textbooks and major instructional materials purchases. Recommendations will be made to the Superintendent. The function of the committee is to ensure that materials are selected in conformance with stated criteria and established District goals and objectives. A curriculum committee may consist of only those members in a particular department. The same basic selection procedures should be followed as with District-wide committees.

Selection and Adoption

Textbooks shall be selected by a curriculum committee representing the various staff who will likely be using the text. In most, but not all, cases an administrator will chair the committee. Each committee should develop, prior to selection, a set of selection criteria against which textbooks will be evaluated. The criteria should include the following, along with other appropriate criteria. Textbooks shall:

- Be congruent with identified instructional objectives;
- Present more than one viewpoint on controversial issues;
- Present minorities realistically;
- Present non-stereotypic models;
- Facilitate the sharing of cultural differences;
- Be priced appropriately.

Removal

Textbooks may be removed when they no longer meet the criteria for initial selection, when they are worn out, or when they have been judged inappropriate through the Learning Materials Review Process.

Copyright

The District recognizes that federal law makes it illegal to duplicate copyrighted materials without authorization of the holder of the copyright, except for certain exempt purposes. Severe penalties may be imposed for unauthorized copying or use of audio, visual, or printed materials and computer software, unless the copying or use conforms to the “fair use” doctrine.

Under the “fair use” doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship, or research.

While the District encourages its staff to enrich learning programs by making proper use of supplementary materials, it is the responsibility of staff to abide by District copying procedures and obey requirements of law. Under no circumstances will it be necessary for staff to violate copyright requirements in order to properly perform their duties. The District cannot be responsible for any violations of the copyright law by its staff.

Any staff member who is uncertain as to whether reproducing or using copyrighted material complies with District procedures or is permissible under the law should consult the Superintendent. The Superintendent will assist staff in obtaining proper authorization to copy or use protected materials, when such authorization is required.

Copyright ComplianceAuthorized Reproduction and Use of Copyrighted Material in Print

In preparing for instruction, a teacher may make or have made a single copy of a chapter from a book; an article from a newspaper or periodical; a short story, short essay, or short poem; or a chart, graph, diagram, drawing, cartoon, or picture from a book, periodical, or newspaper. A teacher may make multiple copies, not exceeding more than one (1) per pupil, for classroom use if the copying meets the tests of “brevity, spontaneity and cumulative effect” set by the following guidelines. Each copy must include a notice of copyright.

1. Brevity
 - a. A complete poem, if less than 250 words and two pages long, may be copied; excerpts from longer poems cannot exceed 250 words.
 - b. Complete articles, stories or essays of less than 2500 words or excerpts from prose works less than 1000 words or 10% of the work, whichever is less, may be copied; in any event, the minimum is 500 words. (Each numerical limit may be expanded to permit the completion of an unfinished line of a poem or prose paragraph.)
 - c. One chart, graph, diagram, drawing, cartoon, or picture per book or periodical issue may be copied. “Special” works cannot be reproduced in full; this includes children’s books combining poetry, prose, or poetic prose.
2. Spontaneity. Should be at the “instance and inspiration” of the individual teacher.
3. Cumulative Effect. Teachers are limited to using copied material for only one (1) course in the school in which copies are made. No more than one (1) short poem, article, story or two (2) excerpts from the same author may be copied, and no more than three (3) works can be copied from a collective work or periodical issue during one (1) class term. Teachers are limited to nine (9) instances of multiple copying for one (1) course during one (1) class term. Limitations do not apply to current news periodicals, newspapers, and current news sections of other periodicals.

Performances by teachers or students of copyrighted dramatic works without authorization from the copyright owner are permitted as part of a teaching activity in a classroom or instructional setting. All other performances require permission from the copyright owner.

The copyright law prohibits using copies to replace or substitute for anthologies, consumable works, compilations, or collective works. “Consumable” works include: workbooks, exercises, standardized tests, test booklets, and answer sheets. Teachers cannot substitute copies for the purchase of books, publishers’ reprints or periodicals, nor can they repeatedly copy the same item

from term-to-term. Copying cannot be directed by a “higher authority,” and students cannot be charged more than actual cost of photocopying. Teachers may use copyrighted materials in overhead or opaque projectors for instructional purposes.

Authorized Reproduction and Use of Copyrighted Materials in the Library

A library may make a single copy of an unpublished work which is in its collection; and a published work in order to replace it because it is damaged, deteriorated, lost or stolen, provided the unused replacement cannot be obtained at a fair price.

A library may provide a single copy of copyrighted material to a student or staff member at no more than the actual cost of photocopying. The copy must be limited to one (1) article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. In the latter circumstance, the entire work may be copied. In any case, the copy shall contain the notice of copyright, and the student or staff member shall be notified that the copy is to be used only for private study, scholarship, or research. Any other use may subject the person to liability for copyright infringement.

At the request of a teacher, copies may be made for reserve use. The same limits apply as for single or multiple copies designated in “Authorized Reproduction and Use of Copyrighted Material in Print”.

Authorized Reproduction and Use of Copyrighted Music

A teacher may make a single copy of a song, movement, or short section from a printed musical work that is unavailable except in a larger work, for purposes of preparing for instruction.

A teacher may make multiple copies for classroom use of an excerpt of not more than 10% of a printed musical work if it is to be used for academic purposes other than performance, provided that the excerpt does not comprise a part of the whole musical work which would constitute a performable unit such as a complete section, movement, or song.

In an emergency, a teacher may make and use replacement copies of printed music for an imminent musical performance, when the purchased copies have been lost, destroyed, or are otherwise not available.

Controversial Issues and Academic Freedom

The District will offer courses of study which will afford learning experiences appropriate to levels of student understanding. The instructional program respects the right of students to face issues, to have free access to information, to study under teachers in situations free from prejudice, and to form, hold, and express their own opinions without personal prejudice or discrimination.

Teachers will guide discussions and procedures with thoroughness and objectivity to acquaint students with the need to recognize various points of view, importance of fact, value of good judgment, and the virtue of respect for conflicting opinions.

The Board encourages and supports the concept of academic freedom, recognizing it as a necessary condition to aid in maintaining an environment conducive to learning and to the free exchange of ideas and information.

In a study or discussion of controversial issues or materials, however, the Board directs teaching staff to take into account the following criteria:

1. Relative maturity of students;
2. District philosophy of education;
3. Community standards, morals, and values;
4. Necessity for a balanced presentation; and
5. Necessity to seek administrative counsel and guidance in such matters.

Religion and Religious Activities

In keeping with the United States and Montana Constitutions and judicial decisions, the District may not support any religion or endorse religious activity. At the same time, the District may not prohibit private religious expression by students. This policy provides direction to students and staff members about the application of these principles to student religious activity at school.

Student Prayer and Discussion

Students may pray individually or in groups and may discuss their religious views with other students, as long as they are not disruptive or coercive. The right to engage in voluntary prayer does not include the right to have a captive audience listen, to harass other students, or to force them to participate. Students may pray silently in the classroom, except when they are expected to be involved in classroom instruction or activities.

Staff Members

Staff members are representatives of the District and must “navigate the narrow channel between impairing intellectual inquiry and propagating a religious creed.” They may not encourage, discourage, persuade, dissuade, sponsor, participate in, or discriminate against a religious activity or an activity because of its religious content. They must remain officially neutral toward religious expression.

Graduation Ceremonies

Graduation is an important event for students and their families. In order to assure the appropriateness and dignity of the occasion, the District sponsors and pays for graduation ceremonies and retains ultimate control over their structure and content.

District officials may not invite or permit members of the clergy to give prayers at graduation. Furthermore, District officials may not organize or agree to requests for prayer by other persons at graduation, including requests from students. The District may not prefer the beliefs of some students over the beliefs of others, coerce dissenters or nonbelievers, or communicate any endorsement of religion.

Baccalaureate Ceremonies

Students and their families may organize baccalaureate services, at which attendance must be entirely voluntary. Organizers of baccalaureate services may rent and have access to school facilities on the same basis as other private groups and may not receive preferential treatment. The District may not be identified as sponsoring or endorsing baccalaureate services. District

funds, including paid staff time, may not be used directly or indirectly to support or subsidize any religious services.

Assemblies, Extracurricular and Athletic Events

District officials may not invite or permit members of the clergy, staff members, or outsiders to give prayers at school-sponsored assemblies and extracurricular or athletic events. District officials also may not organize or agree to student requests for prayer at assemblies and other school-sponsored events. Furthermore, prayer may not be broadcast over the school public address system, even if the prayer is nonsectarian, nonproselytizing, and initiated by students.

Student Religious Expression and Assignments

Students may express their individual religious beliefs in reports, tests, homework, and projects. Staff members should judge their work by ordinary academic standards, including substance, relevance, appearance, composition, and grammar. Student religious expression should neither be favored nor penalized.

Religion in the Curriculum

Staff members may teach students about religion in history, art, music, literature, and other subjects in which religious influence has been and continues to be felt. However, staff members may not teach religion or advocate religious doctrine or practice. The prohibition against teaching religion extends to curricular decisions which promote religion or religious beliefs.

School programs, performances, and celebrations must serve an educational purpose. The inclusion of religious music, symbols, art, or writings is permitted, if the religious content has a historical or independent educational purpose which contributes to the objectives of the approved curriculum. School programs, performances, and celebrations cannot promote, encourage, discourage, persuade, dissuade, or discriminate against a religion or religious activity and cannot be oriented to religion or a religious holiday.

Student Religious Clubs

Students may organize clubs to discuss or promote religion, subject to the same constitutionally acceptable restrictions the District imposes on other student-organized clubs.

Distribution of Religious Literature

Students may distribute religious literature to their classmates, subject to the same constitutionally acceptable restrictions the District imposes on distribution of other non-school literature. Outsiders may not distribute religious or other literature to students on school

property, consistent with and pursuant to the District policy on solicitations (Policy 4321).

Religious Holidays

Staff members may teach objectively about religious holidays and about religious symbols, music, art, literature, and drama which accompany the holidays. They may celebrate the historical aspects of the holidays but may not observe them as religious events.

Participation in Commencement Exercises

Statement of Policy

A student’s right to participate in a commencement exercise of the graduating class at Malta High School is an honor. As such, participation in this ceremony is reserved for those members of the graduating class who have completed all state and local requirements for graduation before the date of the ceremony. Students who complete their requirements after the date of commencement exercises will receive their diplomas at that time.

Organization and Content of Commencement Exercises

The school district will permit students to honor their American Indian heritage through the display of culturally significant tribal regalia at commencement ceremonies. Any item that promotes drug use, weapon use, threats of violence, sexual harassment, bullying, or other intimidation, or violates another district policy, state, or federal law may not be worn during graduation.

The school administration may invite graduating students to participate in high school graduation exercises according to academic class standing or class officer status. Any student who, because of academic class standing, is requested to participate may choose to decline the invitation.

The school administrators will review presentations and specific content, and may advise participants about appropriate language for the audience and occasion. Students selected to participate may choose to deliver an address, poem, reading, song, musical presentation, or any other pronouncement of their choosing.

The printed program for a commencement exercise will include the following paragraphs:

Any presentation by participants of graduation exercises is the private expression of an individual participant and does not necessarily reflect any official position of the District, its Board, administration, or employees, nor does it necessarily indicate the views of any other graduates.

The Board recognizes that at graduation time and throughout the course of the educational process, there will be instances when religious values, religious practices, and religious persons will have some interaction with the public schools and students. The Board, while not endorsing any religion, recognizes the rights of individuals to have the freedom to express their individual political, social, or religious views.

Health Enhancement

Health, family life, and sex education, including information about parts of the body, reproduction, and related topics, will be included in the instructional program as appropriate to grade level and course of study. An instructional approach will be developed after consultation with parents and other community representatives. Parents may ask to review materials to be used and may request that their child be excluded from sex education class sessions without prejudice.

The Board believes HIV/AIDS and other STD instruction is most effective when integrated into a comprehensive health education program. Instruction must be appropriate to grade level and development of students and must occur in a systematic manner. The Board particularly desires that students receive proper education about HIV and other STDs, before they reach the age when they may adopt behaviors which put them at risk of contracting the disease.

In order for education about HIV and other STDs to be most effective, the Superintendent will require that faculty members who present this instruction receive continuing in-service training, which includes appropriate teaching strategies and techniques. Other staff members not involved in direct instruction, but who have contact with students, will receive basic information about HIV/AIDS and other STDs and instruction in use of universal precautions when dealing with body fluids.

In accordance with Board policy, parents will have an opportunity to review the HIV/STD education program, before it is presented to students.

High School Graduation Requirements

The Board will award a regular high school diploma to every student enrolled in the District who meets graduation requirements established by the District. The official transcript will indicate the specific courses taken and level of achievement.

The Board will establish graduation requirements which, at a minimum, satisfy those established by the Board of Public Education (A.R.M. 10.55.904 and 905). Generally, any change in graduation requirements promulgated by the Board will become effective for the next class to enter ninth grade. Exceptions to this general rule may be made, when it is determined by the Board that proposed changes in graduation requirements will not have a negative effect on students already in grades nine (9) through twelve (12). The Board will approve graduation requirements as recommended by the Superintendent.

To graduate from Malta High School, a student must have satisfactorily completed the last quarter prior to graduation as a Malta High School student. Highly unusual exceptions may be considered by the principal, such as a student exchange program in a recognized school.

A student with a disabling condition will satisfy those competency requirements incorporated into the individualized education program (IEP). Satisfactory completion of the objectives incorporated in the IEP will serve as the basis for determining completion of a course.

A student may be denied participation in graduation ceremonies. Such exclusion will be regarded as a school suspension. In such instances the diploma will be awarded after the official ceremony has been held.

Credits

Students shall be expected to earn a total of twenty-one (21) units (fourteen and one-half (14½) specific units) in order to complete graduation requirements. Special education students who have successfully completed their IEP leading to completion of high school will be awarded a diploma.

Waiver of Requirement

Graduation requirements generally will not be waived under any circumstances. However, in rare and unique hardship circumstances, the principal may recommend and the Superintendent approve minor deviation from the graduation requirements.

Alternative Programs

Credit toward graduation requirements may be granted for planned learning experiences from accredited programs, such as summer school, university courses, and correspondence courses. Credit for work experience may be offered when the work program is a part of and supervised by the school.

All classes attempted at Malta High School and all acceptable transfer credits shall be recorded on the transcript. All grades earned, including failures and retakes, shall be recorded as such and utilized in the calculation of Grade Point Average and class rank. Credit shall be awarded only once regardless of repetition of the course.

Credit Transfer and Assessment for Placement

Grades 9-12

Requests for transfer of credit or grade placement from any non-accredited, nonpublic school will be subject to examination and approval before being accepted by the District. This will be done by the school counselor or principal or, in the case of home schools, by a credit evaluation committee consisting of a counselor, a staff member from each subject area in which credit is being requested, and a school principal.

The credit evaluation committee will:

- (1) Document that a student has spent approximately the same number of classroom hours in home school as would have been spent in a regular class in the District;
- (2) Document that a student followed a curriculum essentially similar to that of a course for which credit is requested;
- (3) Document that in the event of a credit request in a lab, industrial arts, or music course, equipment and facilities were sufficient to meet required learning activities of the course;
- (4) Require that a student has satisfactorily passed, in all courses in which a final exam normally is given, a final exam prepared and administered by a staff member in the District.

The District will give credit only for home schools which have met all requirements as specified in Montana law. Credit from home schools will be accepted only when a like course is offered in the District.

The school transcripts will record courses taken in home schools or non-accredited schools by indicating title of the course, school where the course was taken, and grade.

For the purpose of calculation of class rank, only those courses taken in an accredited school will be used.

Grades 1-8

Requests from parents of students in non-accredited, nonpublic schools for placement in the District school system will be evaluated by an assessment-for-placement team. That team will include:

1. A school principal;
2. One (1) teacher of the grade in which the student is being considered for enrollment; and
3. One (1) counselor (grades 6-8 only) (OPTIONAL).

The assessment-for-placement team will cause the District-adopted norm-referenced test and/or the end-of-the-year subject-matter test to be administered and scored. The assessment-for-placement team will take into account the following in its recommendation for grade placement:

1. Documentation that the non-accredited, nonpublic school has provided a comparable number of hours as the child would have attended in a public or private school;
2. That the child followed a similar curriculum as would have been provided in an accredited public or private school;
3. That the result of the end-of-the-year test indicates the student has mastered most prerequisite skills; and
4. That the child achieved an NCE score of 40 or above on the Standard Achievement Test.

Parents of students in home schools are encouraged to maintain a log documenting dates of instruction, content of instruction, amount of time spent on that instruction, scores on tests, and grades in all activities.

The District is not obligated to provide instructional materials for other public or private schools.

If a parent or guardian is not in agreement with the placement of the child, he/she may request a hearing before the Board.

Limited English Proficiency Program

In accordance with the Board's philosophy to provide a quality educational program to all students, the District shall provide an appropriate planned instructional program for identified students whose dominant language is not English. The purpose of the program is to increase the English proficiency of eligible students, so they can attain academic success. Students who have limited English proficiency (LEP) will be identified, assessed, and provided appropriate services.

The Board shall adopt a program of educational services for each student whose dominant language is not English. The program shall include bilingual/bicultural or English as a second language instruction.

The Superintendent or his/her designee shall implement and supervise an LEP program which ensures appropriate LEP instruction and complies with applicable laws and regulations.

The Superintendent or his/her designee, in conjunction with appropriate stakeholders, shall develop and disseminate written procedures regarding the LEP program, including:

1. Program goals.
2. Student enrollment procedures.
3. Assessment procedures for program entrance, measurement of progress, and program exit.
4. Classroom accommodations.
5. Grading policies.
6. List of resources, including support agencies and interpreters.

The District shall establish procedures for identifying students whose language is not English. For students whose dominant language is not English, assessment of the student's English proficiency level must be completed to determine the need for English as a Second Language instruction.

Students whose dominant language is not English should be enrolled in the District, upon proof of residency and other legal requirements. Students shall have access to and be encouraged to participate in all academic and extracurricular activities of the District.

Students participating in LEP programs shall be required, with accommodations, to meet established academic standards and graduation requirements adopted by the Board.

The LEP program shall be designed to provide instruction which meets each student's individual needs based on the assessment of English proficiency in listening, speaking, reading, and writing. Adequate content-area support shall be provided while the student is learning English, to assure achievement of academic standards.

The LEP program shall be evaluated for effectiveness as required, based on the attainment of English proficiency, and shall be revised when necessary.

At the beginning of each school year, the District shall notify parents of students qualifying for LEP programs about the instructional program and parental options, as required by law. Parents will be regularly apprised of their student's progress. Whenever possible, communications with parents shall be in the language understood by the parents.

The District shall maintain an effective means of outreach to encourage parental involvement in the education of their children.

School Wellness

The Malta School District is committed to providing school environments that promote and protect children's health, well-being, and ability to learn by supporting healthy eating and physical activity. Therefore, it is the policy of the Malta School District that:

The development of the school wellness policy, at a minimum, will include:

1. *Community involvement*, including input from teachers of physical education and school health professionals, parents, students, school food service, the school Board, school administrators, educators, and the public. Training of this team of people on the components of a healthy school nutrition environment is recommended.
2. *Implementation, Periodic Assessment, and Public Updates*, including expanding the purpose of the team of collaborators beyond the development of a local wellness policy to also include the implementation of the local wellness policy with periodic review and updates, inform and update the public (including parents, students, and others in the community) about the content and implementation of the local wellness policies, and to measure periodically and make available to the public an assessment of the local wellness policy, including:
 - The extent to which schools are in compliance with the local wellness policy;
 - The extent to which the LEA's local wellness policy compares to model local school wellness policies; and
 - The progress made in attaining the goals of the local wellness policy.
3. *Goals for nutrition education, physical activity, and other school-based activities* that are designed to promote student wellness in a manner that the local education agency determines appropriate.
4. *Nutrition guidelines* for all foods available on each school campus under the local education agency during the school day, with the objectives of promoting student health and nutrient-rich meals and snacks. This includes food and beverages sold in a la carte sales, vending machines, and student stores; and food and beverages used for classroom rewards and fundraising efforts.
5. *Guidelines for reimbursable school meals* to ensure that the District offers school meal programs with menus meeting the meal patterns and nutrition standards established by the U.S. Department of Agriculture.
6. *A plan for measuring implementation* of the local wellness policy, including designation of one or more persons within the local education agency or at each school, as appropriate, charged with operational responsibility for ensuring that each school fulfills the District's local wellness policy.

The suggested guidelines for developing the wellness policy include:

Nutrition Education

All students K-12 shall receive nutrition education that teaches the knowledge and skills needed to adopt healthy eating behaviors and is aligned with *Montana's Health Enhancement and National Association of Sport and Physical Activity/American Alliance of Health, Physical Education, Recreation and Dance Physical Education Content Standards and Benchmarks*. Nutrition education shall be integrated into the curriculum. Nutrition information and education shall be offered throughout the school campus and based on the U.S. Dietary Guidelines for Americans. Staff who provide nutrition education shall have the appropriate training, such as in health enhancement or family and consumer sciences.

Health Enhancement and Physical Activity Opportunities

The District shall offer health enhancement opportunities that include the components of a quality health enhancement program taught by a K-12 certified health enhancement specialist. Health enhancement shall equip students with the knowledge, skills, and values necessary for lifelong physical activity. Health enhancement instruction shall be aligned with *Montana's Health Enhancement and National Association of Sport and Physical Activity/American Alliance of Health, Physical Education, Recreation and Dance Physical Education Content Standards and Benchmarks*.

All K-12 students of the District shall have the opportunity to participate regularly in supervised, organized or unstructured, physical activities, to maintain physical fitness, and to understand the short- and long-term benefits of a physically active and healthy lifestyle.

Nutrition Standards

The District shall ensure that reimbursable school meals meet the program requirements and nutrition standards found in federal regulations. The District shall encourage students to make nutritious food choices through accessibility and marketing efforts of healthful foods.

The District shall monitor all food and beverages sold or served to students, including those available outside the federally regulated child nutrition programs (i.e., a la carte, vending, student stores, classroom rewards, fundraising efforts). The District shall consider nutrient density and portion size before permitting food and beverages to be sold or served to students. The Superintendent shall continually evaluate vending policies and contracts. Vending contracts that do not meet the intent and purpose of this policy shall be modified accordingly or not renewed.

Other School-Based Activities Designed to Promote Student Wellness

The District may implement other appropriate programs that help create a school environment that conveys consistent wellness messages and is conducive to healthy eating and physical activity, such as staff wellness programs, non-food reward system and fundraising efforts.

Maintaining Student Wellness

The Superintendent shall develop and implement administrative rules consistent with this policy. Input from teachers, parents/guardians, students, school food service program, the school Board, school administrators, and the public shall be considered before implementing such rules. A sustained effort is necessary to implement and enforce this policy. The Superintendent shall measure how well this policy is being implemented, managed, and enforced. The Superintendent shall report to the Board, as requested, on the District's programs and efforts to meet the purpose and intent of this policy.
